Global Expo India aims to promote exports from Goa

TIMES NEWS NETWORK

Panaji: The three-day Global Expo India conference began on Tuesday with industry representatives from across the country coming together to discuss ways to promote exports, foreign direct investment and the potential for manufacturing units in Goa.

The event, which was supposed to be attended by finance minister Nirmala Sitharaman, also saw the launch of the Goa chap-

ter of the Global Expo.

Global Expo India is affiliated with the India Trade Promotion Organisation, a unit of the Centre's commerce department.

"Goa has a huge potential for exports, foreign direct investment and manufacturing," said chief executive officer of Global Expo India Bhaskar Dastidar. "Goa has not come up in the global map in terms of exports and FDI. It is majorly known for tourism."

Global Expo India claims to focus on export development through events and conferences, and the Goa chapter has been started in order to promote exports from Goa.

"Despite being a highly literate state, Goa is not known for software and high-end hardware. This is a high potential area," said Dastidar.

Over the duration of the three-day event, countries like Spain, Ecuador, El Salvador, Columbia, Ethiopia, Uganda and Mauritius will partner with Goa for investment and trade in the technology space, logistics, start-ups, research and development, agro and marine food processing, tourism and allied activities, education and entertainment sectors.
